

## Certificate-SCBA Inspection

### **Breathing Apparatus Details.**

|             |                                 |                  |               |
|-------------|---------------------------------|------------------|---------------|
| Customer    | DPAB Co.Ltd Iraq Branch Block-9 | Certificate No.: | QC230728-029  |
| MFG:        | Honeywell                       | Issue Date:      | July 28, 2023 |
| Model No.:  | NA                              | Due Date:        | July 27, 2024 |
| Job Number: | QC/JN/23/00262                  | S/No.:           | 20211122015   |

### **Inspection Results:**

| Parts               | Inspection Items                                                                                                                         | Inspected | Remarks |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------|-----------|---------|
| Face Mask           | Visor , Head Strep, Connector, cover of exhalation Valve, inhalation valve, leak tight silicon rubber, Oronasal guard, Reticulated hood. | √         | Pass    |
| Demand Valve        | Air supply Connector, Outer Shell, and Manual Switch off button, Manual force air supply button, Medium Pressure.                        | √         | Pass    |
| Pressure Reducer    | Working pressure form high Compressed to (0.7:1.25) MPa.                                                                                 | √         | Pass    |
| Pressure Indicator  | Taking random read and checking leak.                                                                                                    | √         | Pass    |
| Alarming Device     | Test the alarm form 6 MPa to 0.25 MPa.                                                                                                   | √         | Pass    |
| Back Plate Assembly | Shoulder Strap, Back Plate Shoulder Strap fastener, Reducer Holder, Waist Belt, Cylinder Fastener.                                       | √         | Pass    |

### **Final Result:**

- The inspected item/items is/are acceptable for use at the time it had been inspected.

- The equipment is/are in specification.
- This inspection was carried out in compliance with Sample Respiratory Protection Program as per (The Occupational Safety and Health Administration (OHSA)) 29CFR1910.134 Respiratory Protection Standard.
- This certificate may not be reproduced other than in full by photographic process.
- This certificate refers only to the particular item/items submitted for inspection.
- This certificate is valid only with signature and stamp.

**Inspected By : Mahdi Haleem**
